

# INTRODUCING OMNIVIEW<sup>TM</sup>

## MACHINE LEARNING

STATE-OF-THE-ART  
TECHNOLOGY

## AVAILABLE ON

MOBILE, DESKTOP, AND  
TABLET VIEW

### PURCHASING VIEW

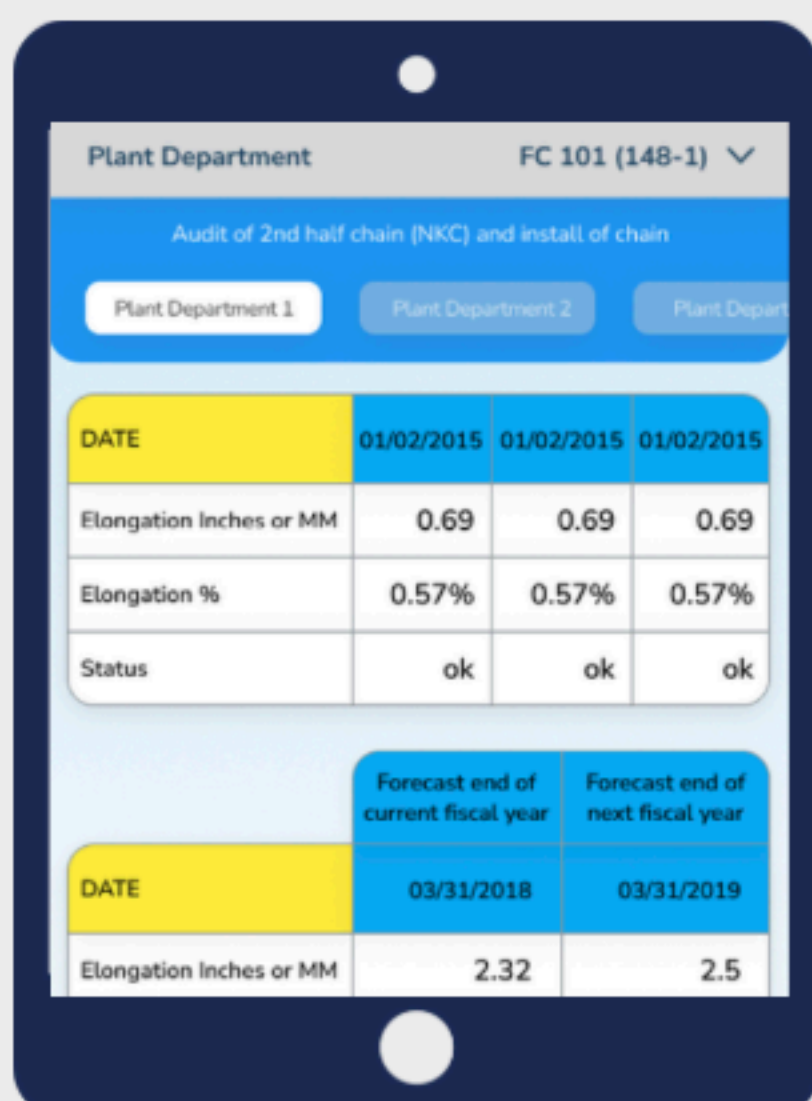

*Simplify the process of buying a chain. Have the ability to get an RFQ out automatically or manually when a chain has reached the parameter that is set to order.*

### RELIABILITY VIEW

*Identify the most elongated chain pitches throughout the plant/department daily. Know how long these pitches have been out of parameters.*

### DIRECTOR VIEW

*Know when a chain needs to be replaced and prioritize based on the fiscal year. Project out to three years of budgets based on future wear progression.*

Plant Department FC 101 (148-1) ▾

Audit of 2nd half chain (NKC) and install of chain
